

Kartik Ashok Pawar

CLOUD & DEVOPS ENGINEER

✉ kartikpawar1290@gmail.com | ☎ [+917887832809](tel:+917887832809) | 📍 Pune | 🌐 [LinkedIn](#) | 🐙 [Github](#) | 📁 [Portfolio](#)

Summary

Cloud & DevOps Engineer with hands-on experience in building secure, scalable, and automated cloud infrastructure on AWS. Strong expertise in CI/CD pipeline design, containerization, DevSecOps integration, and infrastructure as code. Proven ability to reduce deployment failures, improve release speed, and strengthen cloud security using tools like Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, Trivy, and SonarQube. Passionate about automation, reliability, and cloud security best practices.

Experience

Neural Arc Inc Pune
Cloud DevOps Engineer Nov 2025 - Present

- Architected Docker-based containerization for backend services, reducing deployment inconsistencies across environments by 40%.
- Optimized CI/CD workflows using GitHub Actions, cutting manual deployment effort by 60% and improving pipeline success rate by 20%.
- Deployed and managed scalable workloads on AWS ECS (Fargate) and EC2, increasing application availability and scalability by 30%.
- Standardized multi-environment deployments (staging & production), lowering production release issues by 35%.
- Embedded Trivy vulnerability scanning into CI/CD pipelines, detecting security issues early and reducing risks by 45%.
- Strengthened cloud security by managing AWS IAM roles and policies, reducing misconfiguration risks by 50%.
- Secured sensitive credentials using AWS Secrets Manager, eliminating hardcoded secrets and achieving 100% compliance.
- Monitored logs and metrics with Amazon CloudWatch, reducing incident resolution time by 30%.
- Collaborated with frontend teams on AWS Amplify deployments, decreasing rollback incidents by 25%.

Borgward Technology India Private Limited Pune
Cloud DevOps Intern Aug 2024 - Jan 2025

- Automated cloud infrastructure provisioning using Terraform, reducing manual setup time by 60%.
- Standardized automated build and release workflows using Jenkins and GitHub Actions, increasing deployment frequency by 30%.
- Optimized AWS EC2 performance and monitoring using CloudWatch, achieving 20% cost reduction.
- Assisted in improving deployment reliability through automation and monitoring best practices.

Coding Savvy Pune Pune
Web Developer Intern Dec 2024 - Jan 2025

- Developed 5+ responsive web pages using HTML, CSS, and Bootstrap, improving page load performance by 25%.
- Integrated ReactJS components, boosting user engagement and interaction rates by 15%.

Education

Savitribai Phule Pune University Bachelor of Engineering (IT) • CGPA: 8.90/10
Dhole Patil College of Engineering, Pune 2022 - Present

Skills

☞ Cloud Platforms:
AWS, Azure

☞ DevOps & CI/CD:
Docker, Kubernetes, Terraform, Ansible, Jenkins,
GitHub Actions

☞ OS & Tools:
Linux, Git, GitHub

☞ Programming:
Java, HTML, CSS, JS, ReactJS

☞ Monitoring & Security:
Prometheus, Grafana, Trivy, SonarQube, OWASP ZAP

Projects

Enterprise-Level DevSecOps Board Game Project

- Designed a full end-to-end DevSecOps pipeline using Jenkins, Docker, Kubernetes, SonarQube, Trivy, and Prometheus.
- Automated build, test, security scanning, and deployment workflows.
- Reduced deployment failures by 40% and improved release reliability and observability by 35%.

Swiggy Application Deployment (DevOps Mega Project)

- Replaced manual deployments with automated pipelines using Jenkins, Terraform, and Docker.
- Integrated SonarQube, OWASP ZAP, and Trivy for static code analysis and vulnerability scanning.
- Accelerated release cycles by 70% and minimized human errors by 90%

Certifications

OCI Certified DevOps Professional
Oracle

Getting Started with OpenTofu
Linux Foundation

LFS169: Introduction to GitOps
Linux Foundation

LFS101: Introduction to Linux
