

Kartik Pawar

CLOUD & DEVOPS ENGINEER

📍 Pune | 📞 +917887832809 | ✉️ kartikpawar1290@gmail.com | 🔗 LinkedIn | 🐙 Github | 📁 Portfolio

Summary

Cloud & DevOps Engineer experienced in designing scalable, secure, and automated infrastructures using CI/CD, Infrastructure as Code (IaC), and containerization. Adept at accelerating deployments and enhancing system reliability through automation, monitoring, and cloud-native solutions.

Experience

Borgward Technology India Private Limited
Cloud DevOps Intern

Aug 2024 - Jan 2025
Pune

- Streamlined infrastructure provisioning with Terraform, reducing manual setup time by 60%.
- Built and optimized CI/CD pipelines using Jenkins and GitHub Actions, increasing deployment frequency by 30%.
- Leveraged AWS CloudWatch for proactive monitoring, cutting EC2 costs by 20%.
- Collaborated in a 5-member team to implement GitOps workflows, ensuring consistent and efficient delivery.

Coding Savvy Pune
Web Developer Intern

Dec 2024 - Jan 2025
Pune

- Developed over 5 responsive web pages using HTML, CSS, and Bootstrap, improving load times by 25%.
- Integrated dynamic ReactJS components, enhancing UI interactivity and user engagement by 15%.
- Participated in Agile sprints and standups, ensuring punctual delivery of all sprint goals.

Education

Savitribai Phule Pune University
Information Technology
8.12 CGPA

2022 - Present
Bachelor of Engineering

Dhole Patil College of Engineering, Pune

Projects

- Swiggy Application Deployment (DevOps Mega Project) 🌐** |
- Replaced manual deployment processes with fully automated CI/CD using Jenkins, Terraform, and Docker.
 - Embedded security and code-quality checks using SonarQube, OWASP ZAP, and Trivy.
 - Resulted in 70% faster release cycles and reduced human errors by 90%.
- Enterprise-Level DevSecOps BoardGame Project 🌐** |
- Built a robust CI/CD pipeline integrating Kubernetes, Jenkins, SonarQube, and Prometheus.
 - Demonstrated a secure and scalable DevOps workflow with integrated monitoring and security.
 - Showcased end-to-end software delivery with improved reliability and threat mitigation.

Skills

AWS , Docker , Kubernetes , Jenkins , Terraform , Ansible , Prometheus , Grafana , Linux , Shell Scripting , Git and GitHub , Java , Web Development,

Certifications

LFS101: Introduction to Linux Linux Foundation 🌐	Aug 2025	Getting Started with OpenTofu Linux Foundation 🌐	July 2025
LFS169: Introduction to GitOps Linux Foundation 🌐	July 2025	OCI Certified DevOps Professional Oracle 🌐	Sept, 2025
